This warranty is valid for the original purchase only and is not transferrable to a subsequent customer if the Product is sold by the original customer during the warranty period.

Verbatim Australia will not accept goods for repair unless we have provided the consumer with a Notice to Customer Relating to Repair of Goods that complies with regulations. As the notice relates to the repair of Goods that store user-generated data, the repairer's Notice states that the repair of Goods may result in loss of data. Since it is also our practice to supply refurbished Goods as an alternative to repairing a consumer's defective Goods, our notice specifies that the Goods presented for repair may be replaced by refurbished Goods of the same type rather than being repaired. The Repairer's Notice will be issued at the same time that we issue an RMA number. This statement is also available on the Verbatim Australia website.
